It appears to be the general impression, that General Giant, having taken or decided to take the immediate command of the Army of the Potomac, will go speedily forward to attack Richmond. There is also a very extensive impression, that he will certainly capture the city. Tho public faith in regard to this matter rests very much, if not almost entirely, upon the deep confidence felt in General Grant's sagacity, judgment, energy, and military genius. We have as much confidence in these qualities of the distinguished Lieutenant-General as any one can have, and yet we confess that we have some unpleasant misgivings as to the capture of Richmond.

We all know how much time and toil and life it cost Gen. Grant to capture Vicksburg. It is evident that if the mozey expended in rent can be paid toward the purchase of a house and los, the person so payg will in a few years own the house he live in, instead of always remaining a tenant. In view of this fact, I propose to loan money as six per cent. to any number, not exceeding

fifty, industrious, temperate, and respectable individuals, who desire to build their own "They may engage their own builders, and build according to any reasonable plan (which I may approve), or I will have it done for them at the lowest possible rate, without a farthing profit to myself or agent, I patting the lot at a fair price and advancing eighty per ceuf. of the entire cost; the other party fo furnish twenty per cent. in labor, material, en mnney; and they may pay me in small sur weekly, monthly, or quarterly, any amount not less than three per cent. per quarter, all of which is to apply on the money advanced until

If has been ascertained that by purchasing building materials for cash and in large quartities, nice dwellings, painted and furnished with green blinds, can be erected at a cost of \$1,500 to \$1,800, for bouse, lot, fences, &c., all complete; and if six or eight friends prefer to join in erecting a neat block of houses, with verandahs in f ont, the average cost need net exceed about \$1,300 per house and lo It, however, some parties would prefer a single or double house that would cost \$2,500 to \$3,000, I shall be glad to most their views.
"With a view of rendering the above propo sition better understood, I offer the following illustration:

Suppose a new house complete with green blinds lence, &c., costs.....

"The first year the owner pays m: 6 per cent interest—\$72, and 6 per cent toward the principal, in all \$144. This will leave due me \$1,128. The second year he will pay me \$67 68, interest, and \$72 foward the princivil owe me but \$1,058—and by thus paying \$72 each year loward the principal (the inter st is of course less each year), he soon owns the house he lives in without having paid in uch more towards the principal whenever he plasses, and thus have his place free the science He would pay me but 6 per cent interest, and the \$72 or more applied on the principal might bu paid in drabblets weekly, monthly, or quarterly. A portion of his wife's pin mone would almost pay it. One bour per day over work would pay it. Frequently a stoppage of the tobacco or strong drink would save enough to pay it. In fine, any industrious, temper ate, ambitions family can easily secure a resmall sum to commence with, and exercis proper economy and diligence in business. My offer extends only to those who are respectable, of good habits, and enleulated to becorgood citizens.

"BEGAN" OR "BEGUN"? To THE EDITORS: Your paper has recently contained several communications on points of er: may I add one to the number? The se of the perfect participle begun for the past use of the verb begin has been so frequent in newspaper correspondence and editorial arti-eles, as to make me doubt the correctness of my own impressions on the subject. Can I say, "When he begun his work"—or must I as the last number of Harper's Weekly (Murch 5, 1864), in the leading article, this use of the ord occurs in the sent nee, "Obviously i the midst of a war which begun amidst the ers and skepticisms of foreign governments, &c. Will you resolve my doubts? L. L.

Begun, as well as began, was formerly used as the preterite or past tenso of the verb ba-gin. Johnson, in his Dictinnary, gives an example of the kind from Sir John Davis's Latham, also, in his book on the oglish lenguage, admi's that bogin has s double preterie in began and began, and points out the origin of this peculiarity, which would require too much space to state here. Certain it is that two hundred years ago it was es good English to say "I begun my work," a. to say "I began my work." At present u-ag seems to require us to say bagan, and wa fould, for our own par, never think of using caun except us a participle, the other for aving become obsolete. - N. Y. Evening Post.
